## About us

What happens when related personalities meet?

Normally, a friendship is born.

But when those who meet are a passionate wine producer, a brilliant photographer and a wandering artist, the situation becomes more interesting.

Meeting point? Surfing!

Hence, the Sea Bird 1965 project.

### PHILOSOPHY

“Join the story” is our mood. A way of saying that Sea Bird is wherever there is a story to tell, a story to be part, to share and support it together.

Nature has always been a generous mother. Sooner you understand this, sooner you get to the love and passion that animates our lives.

Sea Bird starts from the concept of simplicity. The glide of a bird that touches the surface of the water, free and elegant, the same feeling you have when sliding on a wave ... flying!

Our main purpose is to highlight the passion and the strictly handcrafted work.

## manufacturing

The Sea Bird clothing collection is made according to criteria that we consider sacred.

Our sweatshirts and t-shirts are part of a completely made in Italy artisan production, which starts from the creation of the garment model, up to the sewing of the label.

Our graphics are silkscreened one by one.

We personally and meticulously check the quality of the entire production process.

The entire production process is 100% made in Italy.

Sea Bird surf wax  
 100% organic surf wax  
 100% recyclable, reusable and biodegradable  
 100% handmade in Italy  
 Weight 80 gr.

For water temperatures between 13 ° C and 20 ° C

### the real organic surf wax

The idea of an organic surf wax always titillated our imagination.

The question that bothered us was: how can we create a surf wax that is completely composed of all-natural ingredients and works at the same time offering a grip like the most famous non-organic surf wax?

After a lot of experiments and time spent rehearsing, we succeeded!

Sea Bird wax is a surf wax based on coconut oil, beeswax and pine resin. It offer a range of temperatures that can resist 80% of the climatic conditions that can be found in the Mediterranean sea and temperate oceans like the Atlantic. It is composed of only organic and biodegradable ingredients at "KM 0". There is no transport, no shipping, everything is collected and processed as nature commands.

The exclusive advantage is that the Sea Bird surf wax, after removed from the surfboard, is 100% reusable for a second time.

Sea Bird wine  
Grape variety: nasco e nuragus  
Typology: White wine  
Alcohol content: 13%  
Format: 750 ml

## sea bird wine

Nothing in the world has more elements in common than wine and surfing.

Nature is the first thing that unites them, because without the perturbations there would be neither storms nor rains to feed the earth.

The wind, as it favors the birth of the waves, can also ruin them.

The vine can be overheated by climatic factors and give bad grapes, or these same factors can favor it, giving it a perfect ripeness.

The fundamental element that unites wine and surfing is the ability to create connections between people.

Sea Bird Wine aims to celebrate this great strength.

It is born with the vinification in amphora for 8/12 months with the skins, continuing the refinement without the skins in oak barrels for another 12 months.

Drink it thinking that the best surfer is the one who has fun!

Cheers!
